General Information

Campaign Activity or Campaign Material at the Polling Place

Except as required by law, no person, when within the polling place, shall electioneer or solicit votes for any political party or body or candidate or question, nor shall any written or printed matter be posted within the room.

No person whose name appears as a candidate on the ballot being voted upon at a primary, election, special primary, or special election, except a judge of the probate court serving as the election superintendent, shall physically enter any polling place other than the polling place at which that person is authorized to cast his or her ballot for that primary, election, special primary, or special election and, after casting his or her ballot, the candidate shall not return to such polling place until after the poll has closed and voting has ceased.

No person shall solicit votes in any manner or by any means or method, nor shall any person distribute any campaign literature, newspaper, booklet, pamphlet, card, sign, or any other written or printed matter of any kind, nor shall any person conduct any exit poll (see note below) or public opinion poll with voters on any primary or election day:

1. Within 150 feet of the outer edge of any building within which a polling place is established; or
2. Within any polling place.

Note: Exit Polling Ruling
In 1988, the court issued an injunction permitting exit polling outside of the area beginning 25 feet from the building in which the polling place is located.

Voting by Electors Over 75 Years of age or older or Disabled

On election day between the hours of 9:30 A.M. and 4:30 P.M., each elector who is 75 years of age or older or who is disabled and requires assistance in voting, shall, upon request to a poll officer, be authorized at any primary or election to vote immediately at the next available voting compartment or booth without having to wait in line. Notice of the provisions of this Code section shall be prominently displayed in the voting place.

Use of Cell Phones and Other Electronic Devices within Polling Place

No elector shall use photographic or other electronic monitoring or recording devices or cellular telephones while such elector is within the enclosed space in a polling place.

No person shall use a cellular telephone or other electronic communication device once such person has been issued a ballot or, in the case of precincts using voting machines or electronic recording voting systems, once the person has entered the voting machine or voting enclosure or booth. This subsection shall not prohibit the use of cellular telephones by poll officials.

1 O.C.G.A. §§ 21-2-413 and 21-2-414
2 O.C.G.A. § 21-2-409.1
3 O.C.G.A. §§ 21-2-413 and 21-2-414
Voter Needing Assistance\textsuperscript{4}

No elector shall receive any assistance in voting at any primary or election unless he or she is unable to read the English language or he or she has a physical disability which renders him or her unable to see or mark the ballot or operate the voting equipment or to enter the voting compartment or booth without assistance.

\textbf{In elections in which there is a federal candidate on the ballot}, any elector who is entitled to receive assistance in voting under this Code section shall be permitted by the managers to select any person of the elector’s choice except the elector’s employer or agent of that employer or officer or agent of the elector’s union.

\textbf{In all other elections}, any elector who is entitled to receive assistance in voting under this Code section shall be permitted by the managers to select (1) any elector, except a poll officer or poll watcher, who is a resident of the precinct in which the elector requiring assistance is attempting to vote; or (2) the mother, father, sister, brother, spouse, or child of the elector entitled to receive assistance, to enter the voting compartment or booth with him or her to assist in voting, such assistance to be rendered inside the voting compartment or booth. No person shall assist more than ten (10) such electors in any primary, election, or runoff covered by this paragraph.

If any elector, before or after entering the voting booth, shall ask for instructions concerning the manner of voting, a poll officer may give such elector such instructions; but no person giving an elector such instructions shall in any manner request, suggest, or seek to persuade or induce any such elector to vote any particular ticket or for any particular candidate or for or against any particular question. After giving such instructions and before the elector closes the booth or votes, the poll officer shall retire and the elector shall immediately vote.

\textbf{A poll worker may assist a voter with inserting a Voter Access Card, bringing up the instruction screen, and review instructions with the voter, but must leave the booth when the voter touches the “START” button.}

\textsuperscript{4} O.C.G.A. §§ 21-2-409 and 21-2-410
**Good Practices for Voters with Disabilities**

Signs are vital. Directional signs should designate accessible parking spaces and be visible, especially those designating handicapped parking spaces, as well as the nearest accessible entrance if it is not the main door.

If the precinct does not have a permanent handicapped parking space, designate a handicapped parking space by placement of a temporary “Handicapped Parking Sign”. Make sure there is unimpeded wheelchair access to the building, through the registration process, and to the voting booth.

Always be courteous and respectful. Be considerate of extra time it may take for a person who is disabled or elderly to complete the voting process, and give unhurried attention to a person who has difficulty speaking.

Always speak directly to the voter, and not to a companion, aide, or sign language interpreter.

Animals that assist people who are visually impaired, people with seizure disorders or others, should be admitted into all buildings. **DO NOT** pet or distract these Assistance Animals, as they are working animals, not pets.

If you observe a voter with a disability who needs assistance, **ASK** “May I help you in any way?” before rendering assistance. The answer you receive should dictate any further assistance.

Place chairs or benches along a waiting area for the convenience and comfort of those who may have difficulty standing for long periods of time.

**For Voters with Speech or Hearing Impairment**

A voter who cannot speak can give name and address simply by providing written name and address to the poll worker.

Follow the voter’s cues to determine whether speaking, gestures, or writing is the most effective method of communication.

If speaking, speak calmly, slowly, and directly to the voter. Do not shout. Your facial expressions, gestures, and body movements help in understanding. Face the voter at all times and keep your face in full light (not backlit).

Rephrase, rather than repeat, sentences that the voter does not understand.

**For Voters with Mobility-Impairment**

Do not push or touch another person’s wheelchair or equipment without prior consent. People using adaptive equipment often consider the equipment as part of their personal space. You are also more likely to break a wheelchair or piece of equipment with which you are not familiar.

Ask before helping. Grabbing someone’s elbow may throw the person off balance. A person with mobility impairment might lean on a door while opening it. Quickly opening the door might cause the person to fall.
Either fasten mats and throw rugs down securely or move them out of the way. A person with mobility impairment could trip.

Keep floors as dry as possible.

Keep the ramps and wheelchair-accessible doors to the polling place unlocked and free of clutter.

**Voters with Vision Impairment**

A voter who declares that by reason of blindness he or she is unable to cast a vote as he or she wishes may receive assistance on the basis of the blind voter’s declaration without the necessity of an oath. The printed name and the signature of such person assisting a blind voter shall be provided on the declaration.

_A voter who is vision impaired and wishes to cast a ballot on the Touchscreen unit may do so on the unit with the VWD (Voters With Disability) Kit attached. To attach the VWD kit to one of the Touchscreen units follow the steps as outlined in this manual._

5 _O.C.G.A. § 21-2-409_
Occupation of Voting Booths by Anyone Other Than Voter\textsuperscript{6}

All persons except poll officers, poll watchers, persons in the course of voting and such persons’ children under 18 years of age or any child who is 12 years of age or younger accompanying such persons, persons lawfully giving assistance to electors, duly authorized investigators of the State Election Board, and peace officers when necessary for the preservation of order, must remain outside the enclosed space during the progress of the voting. Notwithstanding any other provision of this chapter, any voter shall be permitted to be accompanied into the enclosed area and into a voting compartment or voting machine booth while voting by such voter’s child or children under 18 years of age or any child who is 12 years of age or younger unless the poll manager or an assistant manager determines in his or her sole discretion that such child or children are causing a disturbance or are interfering with the conduct of voting. Children accompanying a voter in the enclosed space pursuant to this subsection shall not in any manner handle any ballot nor operate any function of the voting equipment under any circumstances.

Challenges to Voting\textsuperscript{7}

Any voter of the county or municipality may challenge the right of any other voter of the county or municipality, whose name appears on the list of electors, to vote in an election. Such challenge shall be in writing and specify distinctly the grounds of such challenge. Such challenge may be made at any time prior to the voter whose right to vote is being challenged voting at the voter’s polling place or, if such voter cast an absentee ballot, prior to 5:00 P.M. on the day before the election; provided, however, that challenges to persons voting by absentee ballot in person at the office of the registrars or the absentee ballot clerk whose vote is cast on a DRE unit must be made prior to such person’s voting.

If a voter wishes to challenge another voter, call your local election office and ask to speak with the elections superintendent or the registrar. If a challenge is filed, the poll manager will be instructed regarding the handling of a challenged ballot.

Poll Watchers\textsuperscript{8}

Notwithstanding any other provisions of this chapter, a poll watcher may be permitted behind the enclosed space for the purpose of observing the conduct of the election and the counting and recording of votes. Such poll watcher shall in no way interfere with the conduct of the election, and the poll manager may make reasonable regulations to avoid such interference. Without in any way limiting the authority of poll managers, poll watchers are prohibited from talking to voters, checking electors lists, using photographic or other electronic monitoring or recording devices, using cellular telephones, or participating in any form of campaigning while they are behind the enclosed space. If a poll watcher persists in interfering with the conduct of the election or in violating any of the provisions of this Code section after being duly warned by the poll manager or superintendent, he or she may be removed by such official. Any infraction or irregularities observed by poll watchers shall be reported directly to the Election Superintendent, not to the poll manager. Official Poll Watchers will have been given a letter by the candidate or party chairperson and a badge bearing the words “Official Poll Watcher”, the name of the poll watcher, the primary or election in which the poll watcher shall serve, and either the precinct or tabulating center in which the poll watcher shall serve or a statement. The poll watcher shall wear such badge at all times while serving as a poll watcher.

\textsuperscript{6} O.C.G.A. § 21-2-413
\textsuperscript{7} O.C.G.A. § 21-2-230
\textsuperscript{8} O.C.G.A. § 21-2-408
Qualifications, Conduct, and Training of Poll Officers

Poll officers appointed pursuant to Code Sections 21-2-90 and 21-2-91 shall be judicious, intelligent, and upright citizens of the United States, residents of the county in which they are appointed or, in the case of municipal elections, residents of the municipality in which the election is to be held or of the county in which that municipality is located, 16 years of age or over, and shall be able to read, write, and speak the English language. No poll officer shall be eligible for any nomination for public office or to be voted for at a primary or election at which the poll officer shall serve. No person who is otherwise holding public office, other than a political party office, shall be eligible to be appointed as or to serve as a poll officer. A parent, spouse, child, brother, sister, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of a candidate shall not be eligible to serve as a poll officer in any precinct in which such candidate’s name appears on the ballot in any primary or election.

The election superintendent shall provide adequate training to all poll officers and poll workers regarding the use of voting equipment, voting procedures, all aspects of state and federal law applicable to conducting elections, and the poll officers’ or poll workers’ duties in connection therewith prior to each general primary and general election and each special primary and special election; provided, however, such training shall not be required for a special election held between the date of the general primary and the general election. Upon successful completion of such instruction, the superintendent shall give to each poll officer and poll worker a certificate to the effect that such person has been found qualified to conduct such primary or election with the particular type of voting equipment in use in that jurisdiction. Additionally, the superintendent shall notify the Secretary of State on forms to be provided by the Secretary of State of the date when such instruction was held and the number of persons attending and completing such instruction. For the purpose of giving such instructions, the superintendent shall call such meeting or meetings of poll officers and poll workers as shall be necessary. Each poll officer shall, upon notice, attend such meeting or meetings called for his or her instruction.

No poll officer or poll worker shall serve at any primary or election unless he or she shall have received instructions; shall have been found qualified to perform his or her duties in connection with the type of voting equipment to be used in that jurisdiction; and shall have received a certificate to that effect from the superintendent; provided, however, that this shall not prevent the appointment of a poll officer or poll worker to fill a vacancy arising on the day of a primary or election or on the preceding day.

All duties must be performed in full view of the public. Potential voters may watch but are not allowed to enter the enclosed space or interfere when preparations for opening the polls are in progress.

*At no time are the doors to the polling place to be locked so as to exclude any member of the public from viewing the pre-election preparation, conduct of the election, or the closeout procedures.*

Refer to the *Opening and Closing Instructions*. This should be done in assembly line style: while waiting for one Touchscreen unit to get to the proper screen or finish printing a report, go to the next Touchscreen unit and continue with the opening or closing procedure.

While conducting the opening procedures, do not remove side privacy panels.

1) One Poll Official reads the instructions
2) One Poll Official follows the instructions as read to them
3) One Poll Official records the necessary information on the *Direct Record Electronic Voting Machine Recap Sheet*

*If Seal on the Touchscreen unit is broken prior to conducting the opening procedures, call your local elections office immediately.*

Opening Procedure for the Voting Unit

ON ALL UNITS

1. Verify “Before Polls Open SEAL NUMBER” and “DRE UNIT NUMBER” on Direct Record Electronic Voting Machine Recap Sheet. (See pg. 28).

2. Cut seal and open case. Do not remove side privacy panels.

3. Using the key, unlock and remove the printer cover on the top right side and unlock the security door on the right side.

4. Push the RED power button to turn the unit on.

The zero report will automatically begin to print.

DO NOT TEAR THE TAPE

When the report is finished printing, verify that all counters on the report are at zero (0). Remember: the Manager and both assistants must sign ALL tapes. If the Count Number on the Touchscreen unit is not zero (0), call your local elections office immediately.

1. Leaving the Zero Report attached, roll it up and replace and lock the printer cover. Close and lock the security door.

2. On the “Need Another Copy” screen, press the “No” button.

3. Remove side privacy panels from back cover and attach both sides to Touchscreen unit.

4. Press and hold the BLACK button at the top of the screen to raise the screen.

5. Tilt the screen to the desired angle.

DO NOT PULL THE SCREEN UP TO THE FULL UPRIGHT POSITION.

IF THE TOUCHSCREEN IS PULLED OUT OF THE SOCKET, REPOSITION BY USING YOUR THUMB TO DEPRESS THE TAB AND INSERT BACK INTO SLOT. PLACE TOUCHSCREEN AT DESIRED ANGLE.
DO NOT FORGET:

Attach “Voting Instructions” poster to the inside of each Touchscreen unit.

Electrical Cord Placements - Check to make sure that the power cord that goes from the booth to the Touch Screen unit located on the left side of the unit towards the back is firmly plugged in.

Attach the VWD (Voters With Disability) kit to one of your Touch Screen units. The plug-ins for the headphones and the keypad are located on the right side of the Touch Screen unit just in front of where the security door closes. This allows you to attach or remove the VWD kit without having to unlock and open the security door.

*The VWD kit can be attached to any one of your Touch Screen units. All units are capable of displaying the audio and/or magnified ballot.*

1. Plug in the headphone set to the headphone jack labeled “AUDIO”, and then plug the keypad into the serial jack (5 prong on top, 4 on bottom) labeled “KEYPAD”.

2. Place the keypad on the unit behind the screen until needed.

*This unit can be used by any voter on Election Day when not in use by a disabled voter.*
Troubleshooting Before Polls Open.

**What if nothing happens after I push the red button to turn the unit on?**

Check to see if the power cord is firmly attached and in place on the side of the Touchscreen unit.

*Also, check the power cord in the back left corner of the Touchscreen unit.* If there is still no response, call your local elections office.

**What if there is no power cord in the unit?**

Prepare the unit for voting and call your local elections office to get one delivered. The unit can run on backup battery power until the replacement cord arrives.

**What if a message comes up that says, “Please insert the election media or a security key card”?**

Make sure the memory card is fully inserted. With the security door open, push the memory card firmly into the slot.

**What if the unit fails to print a Zero Report?**

Check that the printer lever is down (a gray “backward L” shaped lever to the right of where the paper comes out). If it is, check the paper roll and make sure it is installed correctly. Turn the unit off and then turn it back on. If it still doesn’t print, call your local elections office.

**What if there is any other name of a precinct or polling location on the ballot screen other than what you know is supposed to be on the unit?**

Turn the unit off and call your local elections office.
Before Polls Open Recap Sheet

Check for correct precinct.

Verify “DRE UNIT NUMBER” and “Before Polls Open SEAL NUMBER”

Record “Before Polls Open Count Number” on Direct Record Electronic Voting Machine Recap Sheet. Should all read zero (0).

If the TOUCHSCREEN Unit is not at zero, turn the unit off, close the unit and call your local elections office immediately.
Preparation of the Polling Place

The governing authority of each county and municipality shall provide and the superintendent shall cause all rooms used as polling places to be provided with suitable heat and light, a sufficient number of voting compartments, booths, or machines, and the proper supplies for the voter to conveniently mark their ballots. When practicable, every polling place shall consist of a single room, every part of which is within the unobstructed view of those present. The voting machine or machines shall be placed in the voting rooms so as to allow monitoring of the units by the poll officers while the polls are open, and to permit the public to observe the voting without affecting the privacy of the voters as they vote.¹⁷

At least one hour prior to the time set to open the polls, the voting machines and supplies will be delivered to the polling places in each precinct. The machines will be set up in the proper manner, signs, sample ballots and other instructions will be posted, and other supplies will be distributed.¹⁸

Prior to opening the polls, the manager will break the seal on each voting unit, turn on each unit, certify that each unit is operating properly and is set to zero, and print a zero tape certifying that each unit is set to zero. The manager shall keep or record this zero certification on each unit. At least one voting machine will be accessible to disabled electors at each precinct.¹⁹

Opening the Poll

At 7:00 A.M., the Poll Manager is publicly to declare, “The Poll is Open.”

IF IT BECOMES EVIDENT THAT YOU WILL NOT BE ABLE TO OPEN THE POLL PROMPTLY AT 7:00 A.M., CALL YOUR LOCAL ELECTIONS OFFICE IMMEDIATELY.

Wipe off the touchscreen with the Computer Cleaning Cloth that came in your supplies if necessary. **DO NOT USE LIQUID OR ANY OTHER CLOTH.**

Make sure that the Touchscreen unit is not running on battery power during these inspections. There is a panel on the lower right hand corner of the touch screen. If it reads “AC OFFLINE” and the bar is **RED**, the Touchscreen unit is running on its battery. If it is on battery power, make sure that the AC cord is correctly plugged into an outlet or daisy-chained to a neighboring Touchscreen unit and that the other end is correctly inserted into the AC inlet of the booth. Notify your local elections office if power is not restored to the Touchscreen unit.

ExpressPoll 4000 Opening Procedures

1) Compare serial and seal numbers on ExpressPoll recap sheet with equipment, if correct, proceed.

2) Open case; remove ExpressPoll units, power cord for each unit, and orange network cord. When handling the units, make sure that you lift and carry the unit by its base. If the unit is handled only by the touch screen you may cause the unit to malfunction.

3) Attach orange network cord to both units.

Electors’ List (*ExpressPoll*)

Check to ensure Voter Certificate is complete and locate the voter’s name on the Electors’ List using *ExpressPoll*. **Note:** Always begin your search with the Electors’ List set in Precinct search mode.

If the name cannot be found as it appears on the Voter’s Certificate, ask the voter if his or her name could be listed any other way. If the voter is registered differently, print the name as it is listed on the Electors’ List onto the Voter’s Certificate.

If the voter’s name *is not* on the Electors’ List, or cannot be found using *ExpressPoll*’s statewide registration search capability, or is not found on a Supplemental Electors’ List (if provided), notify the Poll Manager.

If IDR is indicated on the voter’s row, the voter must provide current and valid identification from one of the proper forms of identification prior to voting. **NOTIFY THE POLL MANAGER** that this voter must cast a Provisional Ballot if they are unable to provide acceptable identification.

*WHEN VOTER’S NAME IS LOCATED:*

Touch the voter’s name to access their full record and to begin the process of creating a Voter Access Card. When the Voter Access Card has been created, the voter’s record will be updated to show them as voted and the Elector’s List marked.

Mark the Voter’s Certificate on the appropriate line.

Electors’ List

Troubleshooting Guide and Common Questions

1. If the Electors’ List indicates a Voter was issued or received an Absentee Ballot (“AB” in the corresponding column) and the voter does not have the absentee ballot, instruct the voter to appear in person at the Registrar’s Office to request to have their absentee ballot cancelled. They will receive written authorization from the Registrar’s Office to vote in person, which they will bring back to the poll.

2. If the Electors’ List indicates a Voter was issued or received an Absentee Ballot (AB in any of the columns) and voter has their intact absentee ballot, they may surrender the absentee ballot to the poll official.

   a) Write CANCELLED and the date and time across the face of the absentee ballot and initial. Return the cancelled ballot with election supplies.

   b) Locate the voter’s name on ExpessPoll. Touch the voter’s name and follow the process of removing an AB voter mark outlined in the ExpressPoll manual.

   c) Once the AB voter mark has been removed from ExpressPoll, touch the voter’s name and go through the normal process of issuing a Voter Access Card and directing the voter to an open voting unit.
3. **Person Not On Electors’ List.**

Double-check the spelling of the name or if name is hyphenated.

After double-checking, use ExpressPoll’s statewide search to see if the voter is assigned to another voting precinct.

If this search is successful, provide the voter with the name and location of their assigned precinct and forward them to that location.

If after using the statewide search **no record** of the voter is found, review the Supplemental Electors’ list (if provided).

A Supplemental Electors’ List contains names of voters added to the precinct Elector’s List late, and thus not present on the list displayed by ExpressPoll.

If a voter’s name is found on the Supplemental Electors’ List, use ExpressPoll to encode a Voter Access Card for this voter and mark their name as voted on the Supplemental Electors’ List.

Then record their name on a Supplemental Numbered List of Voters.

If the voter’s name **cannot be found** on a Supplemental Electors’ List, **notify the Poll Manager.**

*No person should be turned away without the poll official contacting the Registrar’s Office.*
*No person should be written in the Electors’ List without authorization.*

4. **IDR is next to the Electors’ Name.**

This voter is required to provide current and valid identification prior to proceeding with the registration process and voting in the precinct.

This voter may show a utility bill, bank statement, government check, paycheck, or government document that shows the name and address of the voter in addition to the six forms of photo identification.

If a voter listed as **IDR** cannot produce the appropriate form of identification the voter shall be directed to the provisional voting station.
Numbered List of Voters (*ExpressPoll*)

Once a voter has been marked on the Electors’ List displayed by ExpressPoll, their name is placed on a Numbered List of Voters maintained on ExpressPoll.

For those voters marked on any Supplemental Electors’ List, their name will need to be recorded on a Supplemental Numbered List of Voters, which will be on paper.

**ExpressPoll 5000**

The ExpressPoll 5000 is similar in look and operation to the ExpressPoll 4000 system. The exception is that the ExpressPoll 5000 does not have the base unit card encoder attached. The voter card encoder is built into the ExpressPoll 5000 touch screen unit. The advantage of the ExpressPoll 5000 system is that it is portable. Poll Workers can check and verify voter information while the voter is standing in line at the polling place.

**Guidelines for Use of ExpressPoll 5000 Poll Books**

- An ExpressPoll 5000 may be used in the same manner as an ExpressPoll 4000 at the check-in station to mark voters and create voter access cards.
- An ExpressPoll 5000 may be used for in-line voter verification to determine whether voters waiting in line to check-in are at their correct precinct.

  - *However, an Express Poll 5000 may not be used in the same election for both in-line voter verification and checking in voters or creating voter access cards.*

**ExpressPoll 5000 In-line Voter Verification Use Fact Sheet**

**Requirements to Use ExpressPoll 5000 for In-line Voter Verification**

1. ExpressPoll 5000s used for this purpose require a specially configured compact flash card that disables the unit’s ability to mark a voter as voted or create a voter access card.

2. If a county plans to use ExpressPoll 5000s to verify that a voter is in the correct precinct before reaching the voter certificate station, the county **MUST** notify The Secretary of State’s Elections Division and KSU of the number of ExpressPolls planned for use in this capacity.

3. Once notified, KSU will prepare the necessary number of compact flash cards and will mark these cards to indicate that they are designed to perform the specific task of in-line voter verification.

4. A compact flash card programmed to be used for in-line voter verification **CANNOT** be used in any ExpressPoll assigned to mark voters and create voter access cards.

5. An ExpressPoll set to work as an in-line voter verification unit **CANNOT** be networked with any ExpressPoll units in the precinct used to mark voters and create voter access cards.

6. Poll workers assigned to use the ExpressPoll 5000s for in-line voter verification must be trained on their proper use and the differences between the specially configured ExpressPoll units and those used at the check-in table.
How to Setup and Use ExpressPoll 5000 as an In-line Voter Verification

1. Insert the specially configured compact flash card into the ExpressPoll 5000 and assign the unit to its specific voting location, as any other ExpressPoll unit.

2. The same opening procedures used to open the ExpressPoll units used to create voter cards can be used to open these in-line voter verification units. However, the in-line units will NOT be networked to the other units in the precinct at any time and they will NOT show any voters marked.

3. The ExpressPoll unit will display information about the voting location including the total number of voters (active and inactive combined) within the polling location.

4. At the Open/Close screen, touch the Electors List tab, and then touch the Search Electors List button.

5. The Electors List for the voting location is displayed. The search mechanism on this ExpressPoll is identical to any other ExpressPoll unit. Enter in the voter’s name and see if the voter appears on the list of voters. If the voter’s name does appear, the voter should continue moving through the line. If their name does not appear, then expand the search to a county-wide or state-wide scope to determine to which voting location the voter should be directed. When the search is complete, return the search scope to the precinct level and touch the highlight clear button before entering information for the next person in line.

6. At the time of closing, touch the Return to Main Screen button and then touch the Open/Close polls tab.

7. The unit can be powered off and placed in its case and sealed. No information from this unit will be needed during the reconciliation process at the close of polls.
Converting TouchScreen Unit in Election Mode to Card Creating Unit

The following are the steps suggested when needing to convert a TouchScreen unit in election mode to a voter access card creating unit in the precinct. These steps would be followed if the ExpressPolls within the precinct failed and were not able to create Voter Access Cards.

1. Select one of the TouchScreen voting units in the precinct

2. Record the TouchScreen unit serial number and note on the Precinct Recap sheet at what time the unit was converted to a card creating unit

3. Record on the Precinct Recap sheet the public count on the unit as well as the system total, located at the bottom of the unit's screen

4. Insert a green Supervisor Card and enter the password

5. At next screen, touch the Create Voter Card button

6. The Create Voter Access Card screen will be displayed

7. To create a voter access card, select the precinct that matches the voter’s district combo by touching the corresponding area.

8. If a primary scenario, now select the desired Party needed by touching the corresponding area

9. Now touch the Create Card button located at the bottom right corner of the screen

10. Insert a Voter Access Card into the TouchScreen unit

11. The Voter Access Card will eject when it has written the desired information to the card

12. Remove the Voter Access Card; it now contains the information needed to bring up the desired ballot style on another TouchScreen unit.

13. When done using the unit as a card creating unit, touch the Close button located at the bottom left corner of the screen.

14. Record the time the TouchScreen unit exited the Card Create screen and again record the Public Count and System Total numbers. These numbers should be unchanged from when the unit was converted to a card creating unit.

15. DO NOT return the TouchScreen unit back voting mode.

16. The unit can now be turned off, or IF the polls have closed, the End Election button can be touched and the normal closing procedures followed.
**Voter Access Card Issuance/Encoder**

The encoder is used to program the voter access cards to be used in the voting process.

*An Encoder will only be used as a BACK UP method should the ExpressPoll not function properly.*

**Things to remember about using the encoders:**

The encoders have an auto-off feature to conserve battery power. They will automatically shut off after 90 seconds of non-use.

The Precinct/Ballot Style can be seen on the top line of the display screen on the encoder.

If your precinct has more than one ballot style, the election superintendent will provide you with a list of numbers that correspond to the ballot styles in your precinct. This will enable you to determine the correct ballot style to issue to each voter.

*Note: If your precinct has more than eight ballot styles, then additional encoders must be programmed with the remaining ballot styles.*

When a voter touches the **Cast Ballot** button on the Touch Screen, three things happen simultaneously:

1. The votes are recorded.
2. The public counter increases by one.
3. And, the ballot style information is erased from the Voter Access Card making it ready to be encoded for the next voter. The Voter Access Card is useless to another voter until it has been encoded again.
Encoding the Voter Access Cards

Use the following instructions to guide you through creating Voter Access Cards using an encoder.

---

**Step 1**

- Remove the encoder from your supply kit.
- Touch **ON**
- The number of cards created thus far during the election appears in the bottom right corner.

---

**Step 2** Insert Voter Access Card into the back of the encoder so that the gold medallion touches wires.

---

**Step 3** When **Create?** appears on the encoder's screen, press **YES**.

---

**Step 4** After pressing **YES**, remove the Voter Access Card from the encoder. The Voter Access Card is now activated, and ready for voter to use at a Touchscreen unit. Instruct the voter to go to the next available Touchscreen.

---

**Choose the Correct Ballot Style**

- The Precinct/Ballot Style appears on the first line.
- "1:" appears on second line to left. (This is the first ballot style available)
- If there are additional ballot styles, they will be available by pressing other numbers on the keypad.
Encoding the Voter Access Card for Voter with Disability

**Step 1**
- Press **ON**.
- Precinct/Ballot Style shows on first line.
- Number of cards made thus far during the election shows in the bottom right corner.

**Choose the Correct Ballot Style**
- The Precinct/Ballot Style appears on the first line.
- “1:” appears on second line to left. (This is the first ballot style available)
- If there are additional ballot styles, they will be available by pressing other numbers on the keypad, such as “2” or “3”.

**Step 2** Insert Voter Access Card into the back of the encoder so that the gold medallion touches wires.

**Step 3**
- Press the * key **once** for M – magnified ballot.
- **Twice** for VM – to Magnify ballot **with voice-sound**.
- **Three times** for VH – To Hide ballot **with voice-sound**.

**Step 4**
- Press the “YES” key to activate the voter card.
**Step 5**
After pressing **YES**, remove the Voter Access Card from the encoder. The Voter Access Card is now activated for the VWD voter.

Direct this voter to the Touchscreen containing the VWD (Voters With Disability) kit.
Voter Access Card and Encoder
Troubleshooting Guide and Common Questions

1. **What if the Encoder won’t create cards? Or, I turn it on and nothing appears?**

   Turn the encoder OFF and notify your local Elections office. Use the backup encoder until a replacement arrives.

2. **What if boxes appear in the LCD panel of the encoder?**

   Turn the encoder OFF and notify your local Elections office. Use the backup encoder until a replacement arrives.

3. **What if a voter access card can’t be programmed, or the encoder says “Bad Card”?**

   It is possible that the voter access card has become “dirty” from handling or that fingerprints on the gold chip have temporarily disabled the card. Rub the gold chip on the card with a soft cloth. If this doesn’t solve the problem, put the card aside with a note, and do not use it again.

4. **What if a voter access card is inserted into the encoder, and instead of “Create?”, “Clear?” appears?**

   Press **YES**.
   
   **Create?** will then appear.
   
   Press the number of the ballot style you want. Press **YES** again.
   
   **Clear?** will appear. Remove the voter access card and present it to the voter for voting.

5. **What if a message on the encoder asks if you want to Upgrade Mgr. Card?**

   **Remove card immediately!** – DO NOT TOUCH **YES**

   Insert a new Voter Access Card.
   
   If the same message appears, turn the encoder off and call your local elections office.

6. **What if the encoder says anything other than “Create?” or “Clear?” when I insert a voter access card?**

   Turn the encoder OFF and notify your local Elections office. Use the backup encoder until a replacement arrives.
Precinct Exit Area

Touchscreen Units and Exit Area

Place one (1) Poll Worker to collect the Voter Access Card from each voter after the voter has cast a ballot.

Issue sticker to the voter…
Troubleshooting Guide and Common Questions

What if a voter does not have the Voter Access Card at the Exit Area?
Instruct the voter to return to the Touchscreen unit upon which he or she voted to retrieve the Voter Access Card.

What if voter says the Voter Access Card was not returned to them?
Instruct the voter to return to the Touchscreen unit to ensure that the voter pressed the CAST BALLOT button. The Voter Access Card will eject and can be returned.

What if a Voter Access Card is not ejected once a voter has cast the ballot?
Turn the unit off, and then turn it back on; the Voter Access Card should be ejected. If it does not, lower the screen, turn the unit off and call your local elections office.

What if a voter inserts a Voter Access Card and the unit rejects the card?
Re-program the Voter Access Card using the ExpressPoll and accompany voter to unit - wait until you see ballot loading, then leave.

What if the voter puts the Voter Access Card into the Touchscreen unit and “Invalid Card” appears on the screen?
Check to see that the Voter Access Card was properly inserted with the gold medallion end inserted first and face up. If the Voter Access Card was improperly inserted, have the voter insert it properly. If it was inserted properly, retrieve the Voter Access Card and activate another Voter Access Card for the voter. Set that Voter Access Card aside with a note - DO NOT USE

What if the unit goes black (turns off) while someone is voting?
Lower the screen, check the plug, and power cord. If the unit is properly plugged in, try turning it on again. If it does not power on, take the unit out-of-service and call your local elections office. Then re-issue the voter a new Voter Access Card and direct the voter to a working unit. If the voter did not touch Cast Ballot, none of the votes were yet recorded.

What if the screen on a unit suddenly goes dark, whether there was a voter in the booth at the time or not?
Check power cord first. If the unit is plugged in properly, try turning it on again. If it does not power on, lower screen and call the local elections office.

What if power goes out in the polling location?
Power off half of your units and try to determine how long the outage will last. Notify your local elections office immediately so that they can monitor the situation. Continue to allow voters to vote on the units that are operating on battery. If those units run out of power, close them and open the ones that were turned off earlier to continue voting.
What if the instruction or voting screen on a unit is wavy or distorted?

Lower the screen, power it off and then back on. If the screen is still wavy, turn it off and call your local elections office.

What if a voter walks out of the voting booth and leaves the Poll without touching the cast ballot button?

The poll manager is to cancel the ballot following the directions for “Canceling A Voter’s Ballot.”  DO NOT TOUCH “CAST BALLOT.”

What if the audio does not work on the unit that the keypad and headphones are plugged into?

Try adjusting the volume - if that does not work, cancel the ballot, connect the keypad and headphones to another unit, and direct the voter to that unit. The voter’s Voter Access Card should still be activated since the Cast Ballot button was not touched on the other unit.
Poll Closing Procedures

DO NOT FORGET TO:

1. Print precinct number in precinct block or line on voter’s certificate binder cover.

2. Stack the Voter’s Certificates in the binder in lots of 100.

3. Place binders of 100 Voter’s Certificates into envelope provided.
Provisional Voting and Ballots

There are four reasons why a voter may cast a Provisional Ballot:

1. **PERSON WHOSE NAME DOES NOT APPEAR ON ELECTORS LIST (ExpressPoll) (PR)**

   If a person is not on your Electors List, search the statewide list to see if the voter is registered in a different precinct. If the voter is on the statewide list, but in another precinct, instruct the voter where they must go to vote. If the voter is not on either list and the voter believes/claims to have registered before the deadline, then the person is eligible to vote a provisional ballot.

PROVISIONAL ELECTORS IN THE WRONG PRECINCT

- Sec. 302 of HAVA
- O.C.G.A. § 21-2-418(a)
- SEB Rule 183-1-12-.06(4)(a)-(h)

2. **VOTER WHO DOES NOT HAVE ONE OF THE REQUIRED FORMS OF PHOTO IDENTIFICATION (PI)**

   If a voter does not have the appropriate photo identification he or she should be issued a provisional ballot and instructed that the ballot will be counted only if the voter provides the proper identification to the registrar’s office within two (2) days of Election Day.

3. **VOTER WHO REGISTERED FOR THE FIRST TIME BY MAIL IN GEORGIA BUT DID NOT PROVIDE VALID IDENTIFICATION (IR)**

   If a voter who registered for the first time in Georgia by mail and does not supply the proper identification, there will be an IDR in the column to the left of the person’s name on the Electors List. If the voter cannot supply the appropriate identification the voter must be issued a Provisional Ballot. Please note that an IDR voter is allowed to show other forms of identification in addition to the listed forms of photo ID.

4. **VOTER WHO IS CASTING A BALLOT DURING EXTENDED POLL HOURS AS A RESULT OF COURT ORDER (EH)**

   **This provision only applies when there is a federal race on the ballot.**

   In the event that the time for closing the polls at a polling place is extended by court order, all electors who vote during such extended time period shall vote by provisional ballot only. The Elections Superintendent will notify you in this event this occurs.
Rules for Voting a Provisional Ballot

1. Ask voter to complete a Provisional Ballot Certificate (Salmon colored). Voters listed as PR must also complete a Voter Registration Application.

2. Ensure that the forms are complete.

3. Print voter’s name, precinct number, ballot style number, and the date on the Official Provisional Ballot Envelope. Note appropriate code (use codes below) on Provisional Envelope and Provisional Voting Certificate.

   PR – Person whose name does not appear on Electors List. 
   Note: Voter must also complete a Voter Registration Application.

   PI – Voter who does not have one of the acceptable forms of photo ID.

   IR – Voter who registered for first time by mail in Georgia but did not provide valid identification.

   EH – Voter who is casting a ballot during extended poll hours as a result of a court order.

4. Ask voter to provide PhotoID (unless reason for voting is Identification Required – IR or PI). Initial the form in the proper space.

5. Write the voter’s name on the Provisional Numbered List of Voters and note appropriate code in the PROVISIONAL CODE column and BALLOT STYLE in appropriate column.

6. Give the Provisional Ballot to the voter and write the ballot number on the Provisional Voter Certificate in the space provided.

7. Hand voter the ballot and both Official Provisional Ballot Envelopes. Instruct the voter to go to the Provisional Ballot Booth to vote the ballot by filling in the ovals next to the candidate or question of his or her choice. When finished voting, the voter will fold and insert the ballot into the first Provisional Envelope and seal, then insert that envelope into the large salmon-colored envelope, and seal. The voter will then insert the ballot in the Provisional Ballot Container.
8. After the voter has cast the provisional ballot, provide the voter with written contact information so the voter will be able to ascertain whether the ballot was counted and, if the ballot was not counted, the reason why such ballot was not counted. If a federal candidate is on the ballot, the contact information provided to the voter must include a free access system, such as a toll-free telephone number or an internet website, to ascertain such information.

9. Place all of the VOTED Provisional Ballots in the PROVISIONAL BALLOT CONTAINER. Place the Numbered List of Provisional Voters and Provisional Recap Sheet in the proper envelope.

   **Remember:** you must fill out a Provisional Recap Sheet and Numbered List of Provisional Voters for persons that vote Provisional Ballots.

10. Be sure to check that the appropriate box in the top left corner of Numbered List of Provisional Voters has been marked to indicate the type of election.
Uncommon Situations and Troubleshooting Guide

During Registration Process

Absentee Voter Appears at the Poll and Desires to Vote in Person:

IF VOTER HAS ABSENTEE BALLOT:

a) Write CANCELLED and the date and time across the face of the absentee envelope. Return the cancelled absentee ballot with election supplies.

b) Cross through the AB (or other mark according to county) opposite their name on the ELECTORS’ LIST and mark them as voting.

c) Instruct the voter to then go through the normal procedures of voting.

IF THE VOTER DOES NOT HAVE THE ABSENTEE BALLOT:

Instruct the voter to appear in person at the Registrars Office to request to have the absentee ballot canceled. The voter will receive written authorization from the County Registrar to vote in person which the voter must bring back to the poll.

Voter Has Moved within County:

a) Have voter complete the voter’s certificate.

b) Have voter complete a Change of Name and/or Address form in its entirety.

   DO NOT ALLOW THE VOTER TO REMOVE THIS FORM FROM THE POLL.

   IT MUST BE COMPLETED AT THE POLL.

c) Inform voter that he or she will be allowed to vote at this precinct for the current election and any ensuing runoff.

d) Inform voter that the change of address will not be processed until after the date of the runoff. A new precinct card will be mailed to the voter showing the name and location of his or her new precinct and polling place.

Voter Moved From Another County:

Voter may not vote unless registered at least 30 days prior to the election. Have voter complete the Voter Registration Form and include the change of address. The Voter Registration Form will be processed when registration reopens.

Voter Changed Name:

a) Voter must complete the voter’s certificate, using his or her correct name.

b) Voter must complete a Change of Name and/or Address form in its entirety.
While Voter at Touchscreen

The voter card will not go in:

Make sure that the voter is inserting the card in the direction of the arrow. If that is not the problem, try wiping the card off with the same cloth that is used on the screen.

Canceling a Ballot:

There may be times when it is necessary to cancel a voter’s ballot:

1. When a voter has been issued a voter access card encoded with the wrong ballot style, or
2. A voter decides not to cast a ballot after inserting a voter access card and has not yet touched CAST BALLOT.

To cancel a voter’s ballot, take the following steps:

1. Ask the voter to deselect any voting choices he or she has made.
2. Press the page number for 10 to 20 seconds.
3. The Cancel Ballot page will appear. The screen will read: “To cancel your ballot press the Cancel button. To resume voting press the OK button”
4. Press the Cancel button.
5. The Voter Access Card will be ejected

*If the wrong ballot style was encoded*, the voter should then return the Voter Access Card to the poll worker to have it encoded correctly.

*When a ballot is canceled, the returned Voter Access Card will still contain the encoded ballot style information. The ballot style information was not erased because, *Cast Ballot* was not touched.*

Before you can use the cancelled Voter Access Card again, you must first clear the card to erase the previous voter’s ballot information.

*The voter decided not to vote for anything after inserting the voter card.*

Have the voter touch *Cast Ballot* on the last screen; or if the voter has left the booth without completing the ballot, the poll manager will cancel the ballot.

*The voter card will not eject.*

The voter must touch the *Cast Ballot* button for the card to eject.
Opening the Poll

*Key will not open compartment doors.*

Be sure that the key is inserted all the way.

*The printout for the zero report (or the results report) wrapped around itself or became jammed.*

There is a gray “backward L” shaped lever to the right of where the paper comes out. Pull the lever toward you to release the paper. Remove the end of the paper from behind and straighten. Push the gray lever back to the horizontal position. You may reprint if necessary. If you need to feed the paper back into the printer, release the gray lever. Insert paper under the black roller and feed until it appears through the top.

During the Day

*The screen has gotten dirty or smudged.*

Use the cloth provided and ONLY the cloth provided to wipe the screen clean. Use the cloth dry - do not put any liquid on the screen or the cloth.

*What if the voter puts the Voter Access Card into the Touchscreen unit and “Invalid Card” appears on the screen?*

Check to see that the Voter Access Card was properly inserted with the gold medallion end inserted first and face up. If the Voter Access Card was improperly inserted, have the voter insert the card properly. If it was inserted properly, retrieve the Voter Access Card and activate another Voter Access Card for the voter. Set that card aside with a note – **DO NOT USE.**

Closing the Poll

*I made a mistake entering the password.*

Press “Cancel.” The supervisor card will be ejected. Remove it and reinsert it. Enter the password again. Remember the password will show up as asterisks.

*I pressed OK to end the election but it does not go to the screen to print the results.*

The screen should say “Turn unit off or press OK to resume.” Touch OK. Reinsert supervisor card and continue with closing instructions beginning at the point where you enter the password. This time be sure to touch “End Election” instead of OK.

*What if the printer jams before Total Report was printed?*

Let the printer finish printing. Un-jam the paper (see instructions on previous page) and reprint the report.

*What if a unit that has votes on it goes down during the day, but the unit will not power-up to generate results tape?*
CALL YOUR LOCAL ELECTIONS OFFICE BEFORE COMPLETELY CLOSING ALL UNITS.

What if a unit does not power up at the opening of the poll and has not been used at all during the election, what do I do with the memory card that was in the unit?

CALL YOUR LOCAL ELECTIONS OFFICE BEFORE COMPLETELY CLOSING ALL UNITS.
